PROFESSIONAL SUMMARY

Recent Computer Science graduate with hands-on experience in Java backend development, Spring Boot, Node.js, RESTful APIs, and MySQL through internship and personal projects. Strong foundation in object-oriented programming, data structures, and software engineering principles. Passionate about building scalable applications, continuously learning modern technologies, and solving real-world problems through clean, maintainable code.

EXPERIENCE

Banao Technologies

Jan 202 – June 2026

Chrome Extension Intern

Remote

- Assisted in debugging, testing, and refining extension functionality to improve reliability and overall performance.
- Worked with the development team to understand requirements, contribute to assigned tasks, and follow software development best practices.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript, TypeScript, Python

Backend Technologies: Core Java, Spring Boot, Hibernate, J2EE, JDBC, RESTful APIs, Maven

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js

Databases: MySQL, PostgreSQL

Core Computer Science: Object-Oriented Programming (OOP), Data Structures & Algorithms, Collections Framework, Exception Handling, Multithreading, DBMS, Operating Systems

Developer Tools: Git, GitHub, Postman, IntelliJ IDEA, Visual Studio Code

Cloud & AI Tools: AWS EC2, GitHub Copilot, Claude Code, Cursor AI, OpenAI API

Development Practices: Agile/Scrum, Version Control, API Integration, Debugging, Clean Code, Software Development Life Cycle (SDLC)

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Quick Learning

PROJECTS

AI Quiz Builder | Next.js, Node.js, REST APIs, OpenAI API | [GitHub](#)

- Developed a full-stack AI Quiz Builder using Next.js and Node.js with REST APIs to generate and manage AI-powered quizzes.
- Designed responsive user interfaces and implemented modular backend services, improving maintainability and application performance.
- Applied clean separation of concerns between API, service, and UI layers, and delivered a responsive, server-rendered interface scoring 90+ on Lighthouse.

Behavioral Pattern Analysis System | Python, DistilBERT, Gradio, Hugging Face | [GitHub](#)

- Developed and deployed an AI-powered web application that analyzes user text to detect emotions using a fine-tuned DistilBERT model, providing real-time behavioral insights with 75.1% classification accuracy.
- Integrated sentiment, stress, and confidence analysis using rule-based techniques and deployed the application on Hugging Face Spaces for public access with an interactive user interface.

EDUCATION

Bahra University, Solan

2022 – 2026

B.Tech in Computer Science & Engineering

CGPA: 7.3

CERTIFICATIONS

- Data Science Methodology** - IBM
- Cyber Security Essentials** - IBM

ACHIEVEMENTS

- Solved 100+ Data Structures and Algorithms problems on LeetCode using Java, strengthening problem-solving and algorithmic thinking.
- Completed 6-month internships in Java Development and Chrome Extension Development, contributing to production-grade applications.
